You are being carbon copied ("cc:d") on an e-mail "To" "Sami Azam" sami.azam@cdu.edu.au
CC: "Md. Abdur Rahman" mrahman202260@bscse.uiu.ac.bd, "Mohaimenul Azam Khan Raiaan" mohaimenul.raiaan@monash.edu, "Asif Karim" asif.karim@cdu.edu.au, "Jemima Beissbarth" jemima.beissbarth@menzies.edu.au, "Amanda Leach" amanda.leach@menzies.edu.au

Dear Prof. Azam,

Thank you for sending your manuscript

Title: WeCKD: Weakly-supervised Chained Distillation Network for Efficient Multimodal Medical Imaging
Article type: Full Length Article

for consideration to Pattern Recognition. Please accept this message as confirmation of your submission. It has been assigned the following manuscript number: **PR-D-26-01415**.

Elsevier provides a manuscript tracking system where you can monitor the progress of your manuscript. Please note that because of the very large volume of papers submitted to the journal, your paper will be passed from the Editor-in-Chief to an Associate-Editor-in-Chief and then assigned to an Associate Editor who will identify reviewers and then make a decision based on their reports. Authors should therefore refrain from contacting the journal concerning the progress of the review of their paper until at least three months have elapsed since submission.

When should I expect to receive the Editor's decision?
We publicly share the average editorial times for Pattern Recognition to give you an indication of when you can expect to receive the Editor's decision. These can viewed here: http://journalinsights.elsevier.com/journals/0031-3203/review_speed

What happens next?
Here are the steps that you can expect as your manuscript progresses through the editorial process in the Editorial Manager (EM).

1. First, your manuscript will be assigned to the Editor-in-Chief and you will be sent a unique reference number that you can use to track it throughout the review process. The Editor-in-Chief will assign your manuscript to an Associate-Editor-in-Chief, who handles submissions in the broad area of your manuscript. During this stage, the status in EM will be "With Editor".
2. If your manuscript matches the scope and satisfies the criteria of Pattern Recognition, the Associate-Editor-in-Chief will identify an appropriate Associate Editor to handle the review of your paper. The Associate Editor will then contact reviewers who are acknowledged experts in the field. Since peer-review is a voluntary service, it can take some time but please be assured that the Editor will regularly remind reviewers if they do not reply in a timely manner. During this stage, the status will appear as "Under Review".

Once the Associate Editor has received the minimum number of expert reviews, the status will change to "Required Reviews Complete".

3. It is also possible that the one of the handling Editor's may decide that your manuscript does not meet the journal criteria or scope and that it should not be considered further. In this case, they will immediately notify you that the manuscript has been rejected and may recommend a more suitable journal.

For a more detailed description of the editorial process, please see Paper Lifecycle from Submission to Publication:
http://help.elsevier.com/app/answers/detail/a_id/160/p/8045/

How can I track the progress of my submission?
You can track the status of your submission at any time at <https://www.editorialmanager.com/pr/>

Once there, simply:

1. Enter your username: Your username is: *****

If you need to retrieve password details, please go to: *****

2. Click on [Author Login]. This will take you to the Author Main Menu
3. Click on [Submissions Being Processed]

Many thanks again for your interest in Pattern Recognition.

Kind regards,
Pattern Recognition

If you require further assistance, you are welcome to contact our Researcher Support team 24/7 by live chat and email or 24/5 by phone: <http://support.elsevier.com>

This journal uses the Elsevier Article Transfer Service. This means that if an editor feels your manuscript is more suitable for an alternative journal, then you might be asked to consider transferring the manuscript to such a journal. The recommendation might be provided by a Journal Editor, a dedicated Scientific Managing Editor, a tool assisted recommendation, or a combination. For more details see the journal guide for authors.

At Elsevier, we want to help all our authors to stay safe when publishing. Please be aware of fraudulent messages requesting money in return for the publication of your paper. If you are publishing open access with Elsevier, bear in mind that we will never request payment before the paper has been accepted. We have prepared some guidelines (<https://www.elsevier.com/connect/authors-update/seven-top-tips-on-stopping-apc-scams>) that you may find helpful, including a short video on Identifying fake acceptance letters (<https://www.youtube.com/watch?v=o5l8thD9XtE>). Please remember that you can contact Elsevier's Researcher Support team (<https://service.elsevier.com/app/home/supporthub/publishing/>) at any time if you have questions about your manuscript, and you can log into Editorial Manager to check the status of your manuscript (https://service.elsevier.com/app/answers/detail/a_id/29155/c/10530/supporthub/publishing/kw/status/).
